## An Essential Workforce, Here for You

**Coastal Greenery and other landscape companies in the state of Georgia are considered ESSENTIAL in the workforce.** We are an “Essential” business, and so we will continue to perform our job duties in the community until we are told otherwise. Greenery’s production department is still in operation using VERY safe and extreme measures for every one of our team members. Just know that the safety of our team is our first priority and we want to make sure you are getting the best customer service possible under these extreme circumstances.

- Our offices are closed, and the administration staff is working via home offices. Stacey is still able to answer phone calls made to the office and if you have a message to leave, she can get this to the appropriate person.
- Production team members are staggering their arrival and departure times from the shop to keep within the state and county mandates.

- Our teams work separately outdoors so social distancing does work in our favor.
- Our crews are small and are keeping their distance while inside a vehicle.
- Those within the production team who do have offices are not congregating indoors and are keeping very safe distances while in the office.
- Personal hygiene and a solution of Clorox is being used to clean all work areas, work tools, and inside vehicles multiple times a day.
- We do ask that if you have a question, please call your Client Relations Manager or our office. Our crews are advised to keep their distance from everyone!

We are here for you and can be contacted via phone or email!! If you have any questions or need us, please use one of the numbers or email addresses, opposite page, to contact the office or a Client Relations Manager.

**WE ARE IN CONTINUAL PRAYER FOR EACH OF YOU AND YOUR FAMILIES AND OUR NATION DURING THESE DIFFICULT TIMES. WE APPRECIATE YOU ALLOWING COASTAL GREENERY TO BE YOUR LANDSCAPE MAINTENANCE SERVICE PROVIDER.**
